DEF Storage & Dispensing Systems

MP 140 Pneumatic Diaphragm Pump

The Piusi MP 140 is a long-lasting pneumatic diaphragm pump suitable for transferring DEF. The small size of this pump allows a wide range of installation, even in severe duty conditions. The technopolymer body, polypropylene side parts and collectors, and EPDM diaphragm promise a long life and sturdy design.

Features:

- In/out interchangeable
- Built-in diffuser
- Suitable for submersible installation
- Heavy duty
- Easy to fit
- Sturdy design

Performance:

- Up to 26 GPM flow rate
- Max 101 PSI air supply pressure
- Max capacity 20ft self-priming
- Max Ø 0.16" passing solid
